Indiana Access to Recovery

RE: Addition of Medication Assisted Treatment to the Indiana Access to Recovery Service Array

In response to the needs of our clients here in Indiana, the division has decided to add Medication Assisted Treatment to the array of services that are available for payment with Indiana ATR vouchers. This service area will be limited to Medication Assisted Treatment Protocols surrounding the following five medications:

- Methadone
- Disulfiram
- Buprenorphine
- Naltrexone
- Acamprosate Calcium

Organizations providing Medication Assisted Treatment are expected to provide a recognized treatment protocol and be certified by the Division of Mental Health and Addictions to offer this service. All recognized protocols must include:

- Full Medical Physical at intake
- Ongoing Medical supervision
- Supervised Medication Distribution
- Regular counseling, both individual and group,
- Regular multi-panel AOD testing, both scheduled and random
- Ongoing referrals for other needed treatment and recovery support services as needed

All of these services are to be provided as one bundled service for the purpose of Indiana Access to Recovery vouchers. ATR Vouchers will only pay for Medication Assisted Treatment in support of individual clients' recovery activities as listed in their individual recovery plan. These services will be vouchered under the following guidelines.

Modality or Service Type	Cost Per Unit	Unit	Maximum number of Units	Maximum Cost per Client	Maximum combined expenditure
MAT - Methadone	\$ 11.00	1 Day	90	\$ 990.00	\$ 1,000.00
MAT - Naltrexone	\$ 13.00	1 Day	75	\$ 975.00	
MAT - Disulfiram	\$ 16.50	1 Day	60	\$ 990.00	
MAT - Acamprosate Calcium	\$ 14.70	1 Day	60	\$ 882.00	
MAT - Buprenorphine	\$ 29.00	1 Day	30	\$ 870.00	

If you have need of further clarification please contact your Indiana ATR County Representative.

Thank you,

Diana Williams
